In memory of a former doctoral student Inga R. Richter. Inga was dedicated to her students and profession. She felt that her teaching responsibilities did not stop in the classroom; they stopped when her students understood. All seminars are held on Mondays in Room 926 North (69th Street between Park and Lexington) at 12:00PM. Refreshments will be served at 11:45AM.

Mon. February 9, 12:00pm  
Xingxing Zang, PhD, Host: Oloronseun Ogunwobi  
Albert Einstein College of Medicine  
T cell co-stimulation and co-inhibition: New pathways and immunotherapies

Wed. February 18, 12:00pm  
David Fidock, PhD, Host: Jayne Rayper  
Columbia University  
Eliminating malaria - can it be achieved? Lessons from basic science studies.

Mon. February 23, 12:00pm  
Yuling Chi, PhD, Host: Maria Pereira  
Albert Einstein College of Medicine  
Prostaglandin Transporter, A Target for Multiple Therapeutic Applications

Mon. March 2, 12:00pm  
Susan Mclaughlin, PhD, Host: Derrick Brazill  
Queensborough College  
Polycystins have discrete patterns of expression in Hydra and may regulate Hydra behaviors

Wed. March 9, 12:00pm  
TBA, Host:  
TBA  
TBA

Mon. March 16, 12:00pm  
Frederick Maxfield, PhD, Host: Maria Pereira  
Cornell Med  
Role of microglia in clearance of Alzheimer’s amyloid fibrils
Mon. March 23 12:00pm
Peter Lipke, PhD, Host: Ben Ortiz
Brooklyn College
Force-induced amyloids for good and evil: ale, commensalism, and disease.

Mon. March 30, 12:00pm
Rich Wing, PhD, Host: Hualin Zhong
Rockefeller University
Structural Studies of the Nuclear Pore Complex and the Prokaryotic Replisome

Mon. April 13, 12:00pm
Konstantinos (Ntino) Krampis, PhD, Host: Derrick Brazill
Hunter College
TBA

Mon. April 20, 12:00pm
Victoria Kolupaeva, PhD, Host: Jayne Rayper
New York University
Regulatory mechanisms in cartilage biology: new approaches for osteoarthritis

Mon. April 27, 12:00pm
Bao Q. Vuong, PhD, Host: Ben Ortiz
City College
Regulation of secondary antibody diversification

Mon May 4, 12:00pm
Valentina Fossati, PhD, Host: Carmen Melendez Vazquez
The New York Stem Cell Foundation
Using induced pluripotent stem cells to study multiple sclerosis

Wed. May 11, 12:00pm
Johanna Daily, PhD, Host: Jayne Rayper
Albert Einstein College of Medicine
TBA
