The doctoral specialization in School Psychology is fully accredited by the Department of Education of the State of New York and the American Psychological Association. Information regarding APA accreditation can be obtained from the Office of Program Consultation and Accreditation, American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242 Phone: 202-336-5979.

1. **Program of Study**

The student will complete a program of study including a minimum of 60 credits in Educational Psychology and related fields. Four concentrations are offered: Quantitative Methods in Educational and Psychological Research; Learning, Development, and Instruction; School Psychology, and Educational Policy Analysis. The concentration in School Psychology leads to a Ph.D. in Educational Psychology (School Psychology), Certification in School Psychology, and eligibility to sit for the New York State Psychology Licensure examination.

A: **Core Courses**

The core courses are for students in all four concentrations and are foundation courses that prepare students for the First Level examinations.

The core courses are as follows:

- 70200 Educational Psychology: History and Current Systems, 3 cr
- 70500 Statistics and Computer Programming I, 30 hours lecture, 30 hours laboratory, 3 cr.
- 70600 Statistics and Computer Programming II 30 hours lecture, 30 hours laboratory, 3 cr.
- 70700 Research Methods in Educational Psychology, 3 cr.

**TOTAL REQUIRED: 12 credits**

All students must take 70200, 70500, 70600 and 70700 during the first two semesters that they are matriculated in the program.
B. **Area Courses**

In addition to the core courses, there are 18 credits of required area courses. For students **not majoring in School Psychology**, four courses must be chosen from menu (I), and two courses must be chosen from menu (II).

(I) **Learning, Development, and Instruction**
- 71100 Cognitive Development and Learning Processes in Education
- 71300 Social and Motivational Development in Education
- 71400 Instructional Issues: Individual Differences, Group Processes and School Context
- 71700 Language and Communicative Development: Research and Education
- 71900 Theory and Application of Behavioral Techniques in Educational Settings
- 72000 Developmental Psychopathology Among School Based Populations

TOTAL REQUIRED: 12 credits

(II) **Quantitative Methods in Educational and Psychological Research**
- 73000 An Introduction to Psychometrics
- 73100 Evaluation Research
- 83300 The General Linear Model
- 83400 Path Analysis, Factor Analysis, and Structural Equation Models
- 83500 Qualitative Data Analysis

TOTAL REQUIRED: 6 credits

Students who are majoring in School Psychology are required to take the following courses from Menu I above: 71100, 71300, 71900, 72000. Further, 73000 must be chosen from Menu II.

C. **Major Area Courses**

Descriptions of the course requirements for each of the four concentration areas is described in “Major Area Concentrations” and is available from the program office. Supervised Research is required as part of the concentration area sequence and as preparation for the dissertation. Customarily, students can register for up to two semesters of Supervised Research. The first semester individuals register for three credits. The second semester the student registers for zero credits.
D. **Student Program of Studies**

Incoming students are assigned a faculty advisor. As students’ progress in the program, they may select a new advisor who more closely matches their research interests. Students should meet with their advisor at the beginning of each semester to plan and record a program of studies. Advisors will approve the choice and number of courses students plan to take in each semester. It is then the students’ responsibility to notify their advisor of any intended changes in the program as agreed upon.

E. **Registration**

Students must obtain prior approval and their PIN number from their advisor before registering for courses each semester. Students must notify their advisor prior to any intended change in their course load during a semester.

**Students are classified for registration and tuition purposes according to three levels defined as follows:**

- **First Level**  Students who have earned no more than 45 credits – including approved advanced standing transfer credits are classified as First Level.

- **Second Level**  Following the completion of 45 credits and successful completion of the first level exams, students are classified as Second Level.

- **Third Level**  Following the completion of all coursework, successful completion of the second level exams, students are advanced to candidacy and classified as Third Level.
Students continue to register each semester, even after coursework is completed, until they graduate. Students may register as Level III “Maintaining Matriculation” status only when advanced to candidacy. After advancing to candidacy, students register for EPSY 90000 each semester until finishing the dissertation.

F. **Full-time, Part-time Status**

When the student is at Level 1, full-time study is defined as carrying at least 9 credits per semester; a course load of six credits is considered part-time study. All students are expected to register for a minimum of 6 credits per semester.

G. **Attendance at Colloquia and Dissertation Seminars**

Attendance at departmental colloquia and dissertation proposals is considered to be a critical component of the student’s doctoral studies. It is expected that each student will regularly attend these presentations.

H. **Auditing Policy**

To audit a course, permission of the instructor is required.

I **Incompletes**

A student who finds it necessary to take an Incomplete for coursework must obtain prior approval from the course instructor. The student is to inform the instructor in writing of a date for completion of course requirements mutually agreed upon by the student and the instructor. It is the student’s responsibility to inform the advisor of any pending Incompletes. Students are not permitted to request or carry more than two Incompletes at any time during their matriculation. Students should be aware of the Graduate School policy that Incompletes must be resolved within the next two semesters after the course is taken; after that time the Incomplete is
permanent. An Incomplete carried beyond one semester is counted as part of the student’s course load the next semester.

K. **Course Changes**

A student wishing to withdraw from a course without penalty must do so before the end of the third week of the semester.

L. **Leave of Absence**

Students may petition in writing to the Executive Committee for a leave of absence. Typically, requests for leaves of absence will be granted for up to two (2) semesters. In exceptional cases, students may be granted a maximum of four (4) semesters of leave during their entire period of matriculation. Students should request the leave during the semester preceding the anticipated leave. It is the responsibility of students to check the filing deadline published in the Graduate Center’s academic calendar.

2. **Credits for Advanced Standing (Transfer Credits)**

The transfer of credits from other institutions should be limited to courses that are comparable to those taken in the Educational Psychology Doctoral Program at the City University.

The request for transfer credits must be initiated by the student after completion of one semester of study. Transfer credits will be awarded by the student’s advisor with the consent of the Executive Officer. When requesting transfer credits, a student must present in writing to the advisor: the names, course numbers, grades, and institutions where the credits were earned, as well as a course description and syllabus, and transcript showing that the credits have been earned. Requests for advanced standing for more than nine credits must be approved by the Executive Committee.
3. **Faculty Review of Student’s Progress**

At the end of each semester, the faculty meet to review all students’ progress in the program. Following the review, each student receives a written notification of the faculty’s assessment of progress. Two general categories are used to report student progress: **Satisfactory** indicates that the student has met program requirements on schedule and has maintained an approved level of performance, i.e., at least a B average. **Unsatisfactory** means that a student has not maintained satisfactory progress through having one or more Incompletes, by failing to maintain an acceptable grade-point average of 3.0, by not passing First or Second Examinations, or by not making satisfactory progress with respect to dissertation research. Students given an unsatisfactory rating may be placed on **Probation**. Students placed on probation, will be required to satisfy all deficiencies prior to the end of the following semester. Failure to do so may result in the loss of matriculation status. Students who receive a C+ or lower in any course may be required by the Executive Committee to retake the course. Typically students will be required to complete all coursework, however, it should be noted that the initial grade will not be changed.

4. **First Doctoral Examination**

The purpose of the first level doctoral exams is to assess whether a student has reached competency in four of the five following areas in Educational Psychology to justify further advancement in the program:

- Statistics,
- Research Methods,
- Cognition and Motivation,
- Instruction and Language Development,
- Behavior Modification and Developmental Psychopathology
All examinations are two hours long with the exception of Statistics and Research Methods which are one and one half hours long. All students take a total of four examinations as explained below.

All students must successfully complete the examinations in Statistics and Research Methods prior to the beginning of the third semester, **AND** all students must complete two additional examinations, that is, School Psychology students must complete an examination in (a) Cognition and Motivation, and (b) Behavior Modification and Developmental Psychopathology; Learning, Development and Instruction students must complete an examination in (a) Cognition and Motivation, and (b) Instruction and Language Development; and Quantitative Methods and Educational Policy students can choose any two additional examinations, that is, (a) Cognition and Motivation, (b) Instruction and Language Development, or (c) Behavior Modification and Developmental Psychopathology. All students must sit for all four examinations prior to beginning their fifth semester. Students must successfully complete all four examinations to remain matriculated in the program.

Any examination that the student fails must be retaken in the following semester, and **may be retaken only once**. Students are urged to discuss any examination failed with the appropriate faculty.

Examinees will be identified only by Banner ID numbers. Where there is disagreement in the judgment of two examiners, a third member of the faculty will participate in judging the examinations. The student will be informed of the membership of the readers and in case of failure, an appropriate faculty member will explain the basis of the failure to the student.

Updated reading lists will be available by June 1st. These lists apply to the examinations to be given in August of the current year and January of the following year. The examinations will be given approximately one (1) week prior to the beginning of both the Fall and Spring semesters each year. Students must register for the examination with the Assistant Program Officer by the deadline date on the examination application form.
5. **Second Doctoral Examination**

The Second Examination will be taken after the completion of the courses indicated in the student’s plan of studies. Permission to take the Second Examinations must be obtained from the students’ faculty advisor who must sign the registration form. In instances where all courses have been completed except EPSY 89000 (Supervised Research), the student may seek permission from the Executive Committee to sit for the second exam. Permission will be granted only if the student has submitted a draft of the final research paper. Students must register for the examination with the Assistant Program Officer by the deadline on the examination application form.

The Second Doctoral Examinations are designed to assess the students’ knowledge of their area of concentration within Educational Psychology. Students are expected to demonstrate competency, and should be conversant with the empirical research, theories, methodologies, and history of their major area.

An updated reading list will be available by June 1\textsuperscript{st}. These reading lists apply to the examinations given in August of the current year and January of the following year.

The examinations are given twice a year, approximately one (1) week prior to the beginning of the Fall and Spring semesters.

Examinees will be identified only by banner numbers. Where there is disagreement in the judgment of the two examiners, a third member of the faculty will participate in judging the examinations. In case of failure, an appropriate faculty member will explain the basis of the failure to the student.

In accord with Graduate School regulations, students are required to complete the Second Examinations prior to beginning their 11\textsuperscript{th} semester in the program. Students who do not successfully complete their Second Examinations within the above time frame will receive an unsatisfactory progress letter from the Registrar. In extraordinary circumstances, students may petition the Executive Committee no less than three weeks prior to the examination date to
request to delay their exam until the next scheduled exam period without penalty. Students who register for the exam, but do not show up to take the examination will receive a failure for that examination. Students who fail the examination must retake it during the following semester. Students have only two opportunities to successfully complete the second exam.

If a student fails a section of the examination, the student will be permitted one additional opportunity to pass that section. Both sections of the examination must be passed to maintain matriculation in the Program.

6. Research Tools

An individual’s dissertation advisor and committee, with the approval of the Executive Committee, may require a student: (1) to acquire a working knowledge of a foreign language or languages in which there is a substantial body of literature relevant to the student’s research; (2) to acquire functional mastery of computer programming; and/or (3) to acquire mastery of advanced statistical techniques. Should the student be required to develop such skills, the Executive Officer must be notified of this requirement, in writing, by the student’s mentor.

7. Dissertation Procedures

A. Preparation of the Dissertation Topic

After completing all required coursework and passing the Second Examinations, students begin the process of writing their dissertations. A full description of this process can be found in Appendix A. The first step is to develop the dissertation topic in consultation with an Educational Psychology faculty member who will serve as the chair of the Dissertation Committee. This Dissertation Committee will have three members: the chair, and two other faculty, at least one of whom must be a member of the Educational Psychology Program.
Following is a detailed description of the rules governing the composition of the Dissertation Committee as well as the final examination committee for the Defense of the dissertation.

(1) The dissertation committee must consist of 3 members.

(2) The chair of the committee must be a member of the Educational Psychology doctoral faculty.

(3) At least one of the remaining two committee members must also be a member of the Educational Psychology doctoral faculty.

(4) The Graduate School requires that a minimum of 3 of the members of the final dissertation defense committee be members of the CUNY doctoral faculty.

(5) For the final dissertation defense, the committee is enlarged by adding two “outside readers”. Note that the use of outside readers is our requirement but is not a Graduate School requirement. Further note that we only require that the outside readers be “qualified scholars” who were not members of the original committee. For example, the outside reader need not have a doctoral degree.

The completed topic description and the proposed committee members are then submitted to the Executive Committee for approval.

B. **Advancement to Candidacy**

The student is Advanced to Candidacy (Level III status) when all coursework is completed and the second exams have been passed. Upon advancement to candidacy, a student is eligible to apply for the Master of Philosophy Degree. A notice of advancement, along with an application for the Master of Philosophy degree will be forwarded to you by the Registrar. If you do not receive this application form, contact the Registrar directly.

C. **The Dissertation Proposal**

When a student has prepared a dissertation proposal, in which the theoretical rationale, the design, and the justification for the study are made explicit, the proposal is presented, with
the concurrence of the three members of the dissertation committee, to an ad hoc meeting of the Educational Psychology faculty and students at the Dissertation Proposal Seminar. *Hard* copies of the proposal must be distributed to faculty and students of the program through the program office no later than two weeks prior to the seminar date. For more details, see APPENDIX A.

The Dissertation Proposal Seminar will be chaired by the student’s dissertation committee chair. Following the presentation at the Dissertation Proposal Seminar, the dissertation committee and Educational Psychology faculty will meet to judge the proposal, and the Educational Psychology faculty will vote whether to accept with or without changes, or to reject the proposal. The student should prepare the “Approval of Dissertation Proposal” form on page 21 of this document and bring it to the dissertation proposal seminar. The Committee members will certify their decision to approve or reject the proposal.

If the proposal is rejected by the faculty and the student wishes to appeal the decision, the appeal procedure detailed below is followed:

a. The Executive Officer will seek the recommendation of the student’s dissertation committee. If the sponsor and one other member agree to support the appeal, the Executive Officer will forward the proposal to three scholars in the appropriate academic area. These scholars will be eminent in their field and cannot be personal acquaintances of either the student or the committee members. The Executive Officer will select these readers after consulting with the sponsor, as well as with a faculty member who voted to disapprove the dissertation proposal.

b. A form will be sent with the proposal that lists criteria to be considered when evaluating the document.

c. These readers will be financially compensated for their services by the Graduate School.

d. The recommendations of the readers will be presented to the faculty members of the Executive Committee during the Executive Session; that body will render the final decision on the appeal.
D. **The Oral Defense of the Dissertation**

When the dissertation study is complete and the final draft of the document is approved by the three members of the dissertation committee, the oral defense may be scheduled. The Executive Officer will, in consultation with the dissertation committee, appoint two outside readers. An outside reader is a qualified scholar who did not serve on the committee. The outside readers are given three weeks to prepare their reactions to the dissertation, which are then discussed at the oral defense. The student’s oral defense takes place with all sponsoring committee and outside readers present. A student must submit the completed dissertation to the Graduate School by the end of April in order to graduate in June.

8. **Time to Degree**

In accordance with Graduate School regulations students have eight years to complete requirements for their degrees, or seven years if 30 or more transfer credits have been accepted for the student’s program. A time extension beyond the eight years is granted only in exceptional circumstances and only when the dissertation proposal has been approved by the Educational Psychology faculty at the Dissertation Proposal Seminar.

The following time frame and deadlines should also be noted:

(a) Students must sit for their Second Examinations prior to beginning their 11th semester in the program,

(b) Following completion of the Second Examination, students are expected to develop and have their dissertation topic approved within two semesters,

(c) Following approval of the topic, the dissertation proposal must be approved within an additional two semesters,

(d) Following approval of the proposal, the dissertation must be completed within two semesters.

Failure to meet the deadlines given in (a) – (d) will result in an unsatisfactory progress review.
9. **Student Representation**

Students are represented by delegates to various committees of the Educational Psychology Program as well as to committees at the Graduate School level. These student delegates are elected by fellow students consistent with Graduate School By-Laws and Program Governance.

1. Students in the School Psychology specialization elect one first-year student to serve on the Quality Assurance Committee for the duration of his or her program. This committee is composed of one student representative from years 1-4, and this committee meets once each semester with School Psychology faculty.

2. Two student delegates who are elected in August for that academic year attend the monthly Educational Psychology Executive Committee meetings.

3. The Doctoral Student’s Council (DSC) and the Graduate Council are university-wide organizations which represent students’ interests. The names of student delegates to these groups are available from the program office. Students having procedural or technical concerns about program/university matters should contact the appropriate delegate(s).

10. **Professional Licensing**

Students who graduate from the School Psychology area are eligible to sit for the New York State Licensing Examination in Psychology. “Information for Applicants for Licensing as a Psychologist” can be obtained by writing to:

The University of the State of New York  
The State Education Department  
Division of Professional Licensing Services  
Cultural Education Center  
Albany, New York 12230
11. **Appeals**

The program follows the Graduate School regulations for disputes and appeals concerning grades and program procedures, as outlined in the Student Handbook, Appeal Policies and Procedures.
APPENDIX - A

DISSECTATION PROCEDURES
THE Ph.D. PROGRAM IN
EDUCATIONAL PSYCHOLOGY
Dissertation Topic Proposal

After you have completed all of your coursework and examinations, you are eligible to begin the process of writing your doctoral dissertation.

The first step in the process is to develop a dissertation topic proposal with your dissertation chair. The topic is briefly described in a 2-4 page (double-spaced) document. The topic description should include the following information:

(a) Provisional dissertation topic.

(b) Brief statement of the problem area including relevant research citations.

(c) General statement of the dissertation research focus.

(d) List of Committee members and chair (see Student Guidelines for composition of the dissertation Committee).

Effective October 2008, the process by which students submit their dissertation topic proposals was changed. See attached memo on page 21.

After all coursework is completed and the second exams have been passed, you are eligible to be advanced to candidacy and become a Level III student with an associated reduced tuition rate. The Assistant Program Officer submits a form to the Registrar, notifying them that you have advanced to candidacy.

Writing the Dissertation Proposal

You now begin the process of writing your dissertation proposal under the supervision of your dissertation chair and your committee. Although each dissertation proposal will be different, they will typically consist of the following sections:

(a) An Introduction section which clearly states the goal of the proposed research and its importance to the field of Educational Psychology.

(b) A Literature Review section which provides an integrated and comprehensive review of all relevant research. The review should include a clear statement of the relationship for your proposed study to past research.

(c) A Methods section, which describes in detail the research questions, and/or hypotheses you will be investigating, and the methods you will be employing. Full descriptions of the following should be included: method of choosing subjects, measures to be administered, experimental or research design, statistical analyses.

After acceptance of the dissertation proposal by your dissertation committee, you are required to orally defend the proposal. The dissertation proposal seminar will typically consist of a short
(maximum of 30 minutes) presentation by the student describing the proposed research followed by questions from the faculty. The following procedures should be noted:

(a) Except for unusual circumstances, it is expected that the proposal seminar will be scheduled on either a Monday or a Wednesday from AM, 12:00-2:00 PM. Note that on the first Monday of every month, the AM slot is reserved for Executive Committee meetings. It is imperative that you inform the Assistant Program Officer of your scheduled time so that a room may be reserved and the faculty and Provost notified. In addition, it is your responsibility to order any computer/visual equipment from audio/visual services: cdenniston@gc.cuny.edu or 817-7330.

(b) No later than two weeks before the date of the presentation the student must provide the Assistant Program Officer with the following documents: Ten copies of the full dissertation proposal to be distributed to the faculty; Thirty copies of the 2-3 page summary of the proposal to be distributed to students in the program.

(c) Prior to the proposal seminar, the student should obtain from the Assistant Program Officer an “Approval of Dissertation Proposal” form which should be given to the dissertation chair. (see attached)

All students involved in research using human subjects must complete the Committee on the “Protection of Human Subject Disposition Form” available in Sponsored Research (Room 8308). Also available from this office is a list of committee’s scheduled meeting dates.

Please be advised that if you are conducting your research on any of the CUNY campuses, you may submit your proposal directly to the campus’ Institutional Review Board and then provide a copy of the protocol, along with the campus’ approval, to the Graduate School’s Committee on the Protection of Human Subjects. For all other non-CUNY institutions, you must complete the institution’s own forms in addition to the Graduate School & University Center’s Human Subjects Protection form.

The Final Dissertation and Oral Defense

For further “Instructions for Preparing the Doctoral Dissertation,” please visit the following Graduate Center website: inside.gc.cuny.edu/studentaffairs/registrar/coeddiss.htm.

When all research has been completed and the final dissertation has been judged to be acceptable by the student’s doctoral committee, the final oral defense of the dissertation can be scheduled. Educational Psychology regulations require that two “outside” readers be added to the student’s committee for the final defense. These two individuals are chosen by the student’s dissertation chair in consultation with the student. In addition, Graduate School regulations require that at least 3 of the members of the final examination committee be members of the CUNY doctoral faculty. Copies of the full dissertation are provided to the outside readers prior to the final oral. The following additional procedures should be noted:
(a) The same procedures used in scheduling the dissertation proposal should be employed in scheduling the final defense.

(b) The final oral examination follows the same basic format of the dissertation proposal seminar except that it is the completed dissertation that is being defended.

Please contact this Office for assistance with these procedures.
MEMO

From:  Mario A. Kelly, Executive Officer, Educational Psychology

To: Students and Faculty in Educational Psychology

Topic: New procedure for submission of dissertation topic proposals

Date: October 15, 2012

The Executive Committee and faculty in Educational Psychology have revised the process by which students will submit their dissertation topic proposals. This revised process takes effect immediately.

What is the dissertation topic proposal? Upon completion of all required coursework and successful completion of the Second Level Examinations, students begin to develop the dissertation topic in consultation with an Educational Psychology faculty member who will serve as the chair of the Dissertation Committee. At this point students should “Register on Record” for 7 WIU’s (weighted instructional units). The student is Advanced to Candidacy (Level III status) when the dissertation topic is approved and program requirements are met. At this point students may register for EPSY 90000 and should contact the Assistant Program Officer to expedite an override.

What procedures have changed? Only the procedure for submitting the dissertation topic proposal has changed. Also, the format has been altered to include an abstract on the cover page and to limit the length to 3-4 pages.

New Procedure for Submitting Dissertation Topic Proposals to the Executive Committee

- Upon receiving permission from the dissertation advisor to submit their topic proposal to the Executive Committee, students submit their dissertation topic proposals to faculty and the Assistant Program Officer via email no later than one week prior to the date of the Executive Committee Meeting at which students would like their proposal to be considered. Executive Committee Meetings are held on the morning of the first Monday of each month during the academic year. Use the following email addresses: lehri@gc.cuny.edu; mfish@gc.cuny.edu; hjohnson@gc.cuny.edu; b homer@gc.cuny.edu; mkopala@gc.cuny.edu; drindskopf@gc.cuny.edu; gtryon@gc.cuny.edu; jverkuilen@gc.cuny.edu; bzimmerman@gc.cuny.edu; rpalant@gc.cuny.edu. In the subject line of the email insert the following: Dissertation Topic Proposal for EC approval.

- Topic Proposals that are submitted without following this procedure will not be considered at the Executive Committee meeting.

- Students must use 10 or 12 point font and the following format when preparing the document.

Page 1: Topic Proposal Title
          Author of Topic Proposal
          Advisor and Committee Members
          Abstract of Topic Proposal

Page 2+: Elaboration of the topic proposal which shall not exceed 3 to 4 pages and selected references.
