The Office of Institutional Research and Effectiveness (OIRE) is here for your data and analytics needs. We offer the following services to support your program or office:

1. **Data and Dashboards**
   a. Admissions and enrollment
   b. Student progress and graduation
   c. Course registration
   d. Alumni career outcomes
   e. Data dashboards

2. **Assessment and Evaluation Support**
   a. Course evaluations
   b. Assessment of learning outcomes
   c. External program review
   d. Administrative and educational support assessment
   e. Distance education evaluation

3. **Survey Support**
   a. Survey design
   b. Survey administration
   c. Survey progress communication
   d. Survey results analysis
   e. Survey reports web publication

4. **Analytics Support**
   a. Data governance
   b. Data analysis
   c. Data visualization
   d. Data communication
   e. Program ranking analysis
   f. Research studies on various topics

Training is available on data access, dashboards, course evaluations, and Qualtrics. Webinars covering other data and analytic topics can be provided upon request.

**Data/Dashboards**

Our [website](https://example.com) offers interactive dashboards that present student and program data and trends. The Graduate Center Students Teaching at CUNY dashboard, as shown below, presents where Graduate Center students are teaching across CUNY campuses, by year, cluster, and course type.

![Graduate Center Students Teaching at CUNY Dashboard](https://example.com/dashboards.png)

**OIRE HIGHLIGHTS**

- OIRE is providing reports on admissions, enrollment, and course data to Graduate Center leadership to support planning for 2020–2021.
- More than half of the GC’s academic programs have submitted assessment reports on advising and mentoring, available to view on our website.
- OIRE Newsletter Volume 1/Issue 1 available here.

**UPCOMING EVENTS**

- OIRE admissions and enrollment dashboards will be updated in late October. Check our [timeline](https://example.com/timeline) for important dashboard dates.

**Student Spotlight**: Graduate Center students teach over 6,000 course sections across 19 CUNY campuses each year. The top three campuses that GC students teach at are Hunter College, Brooklyn College, and Queens College. This semester, these courses have shifted to remote learning in response to COVID-19, a remarkable accomplishment by our students.

**Faculty Scholarship Survey Highlights**

OIRE began administering the CUNY Faculty Scholarship Survey to all Graduate Center central line faculty in April. Despite the stressful circumstances, GC faculty have reported an impressive amount of scholarship for 2019. Faculty—if you have not had a chance yet to respond, the central office has extended the deadline and there is still time to submit. Please check your email inbox for the link or email us at [institutionalresearch@gc.cuny.edu](mailto:institutionalresearch@gc.cuny.edu).

Graduate Center Faculty reported over 700 works of scholarship. In 2019, faculty:

- Authored or edited 22 books
- Contributed more than 60 chapters or book introductions
- Published over 145 articles in peer-reviewed journals
- Presented over 200 invited lectures
