**THE
GRADUATE
CENTER**

CITY UNIVERSITY
OF NEW YORK

■ Learn about cognitive neuroscience from top faculty from throughout CUNY whose expertise spans neuroscience, psychology, mathematics, computer science, engineering, language sciences, and other related fields.

■ Students design and conduct experiments with leading experts at our many labs and centers using the latest technologies, including fMRI and EEG.

■ This multidisciplinary master's program is the only one of its kind in the United States.

■ As a public institution, we offer a world-class education at a fraction of the cost of other universities.

■ The curriculum is 32 credits. Foundational courses cover neuroscience, neuroanatomy, and statistics. Students specialize in a range of areas through electives.

■ Graduates are set to excel in careers in health, technology, business, education, and more. The program is also excellent preparation for doctoral study.

Admissions

Students with a broad range of academic backgrounds are encouraged to apply.
