## Get Help or Training

If you need technical assistance or would like training, please contact IT Services:

- IT Services (formerly The Help Desk) should be your first point of contact for technical assistance.
- You may contact us by sending an email to ITServices@qc.cuny.edu or by visiting our online self-service portal available 24/7. The self-service portal will allow you to request assistance from IT via a simple web form.
- Emergency calls are received between the hours of 9:00 am – 5:00 pm at 212-817-7300.

## Charge the Battery

- Charging is done in a desktop charger or in a charging rack and is indicated by orange LED light.
- The charging process can take up to 4 hours.
- When the battery is fully charged, the LED light is green and a fully charged Battery icon is displayed.
- While in a desktop charger, the telephone is fully operational, however the phone does not vibrate in charger.
What are basic instructions for using the Avaya 3720 Cordless Phone?

Basic Functions

Make a call

Pre-Dial

• Dial the number and then press the Off-hook key.

Post-Dial

• Press the Off-hook key and then enter the number.

Answer a call

• When the ring signal sounds, press the Off-hook key.

End a Call

• Press the On-hook key. The total call time is shown in the display.

Use Call Waiting

During a call, a second call will appear on the display.

• Press the Off-hook key. You will be connected with the new caller, while the other party is placed on hold. When the line is free, your phone will automatically ring with a call from the party that was placed on hold.

Use the Phone Menu

The phone menu can be accessed by pressing the Menu soft key (left button below the display). The menu structure includes 3 submenus: a) Calls b) Contacts and c) Settings.

• Use the Navigation key to move around in the menu structure. As you move from one menu to another, the name of the menu will show at the top of the phone’s display screen.

• The three soft keys below the display screen are used for choices within a selected menu.

• The function of each soft key is explained by the text shown directly above the soft key in the display.

Add a Contact

1. Press the Menu soft key and then press the Select soft key to enter the Contacts menu (which is highlighted by default).
2. Select Add contact and then select New.
3. Press the Add soft key to choose Name which will already be highlighted.
4. Enter a name and press OK.
5. Highlight the type of phone number you wish to save your entry as (Work Number, Mobile Number or Other).
6. Press the Add soft key.
7. Enter the phone number, and then press OK.
8. (Optional) If you wish to add another number, scroll and highlight another number type, and then press the Add soft key again.
9. Press the Save soft key.
What are basic instructions for using the Avaya 3720 Cordless Phone?

Add a Contact from Call List

1. Press the **Menu** soft key, and then press the **Select** soft key to enter the Contacts menu (which is highlighted by default).
2. Select **Add contact** and then select **From call list**.
3. Highlight the desired phone number from the call list. (If you have not made calls, the list will be empty.)
4. Press the **Add** soft key.
   **Note:** When a key is pressed, all of the letters, numbers and symbols that are stored in that key will show at the top of the display screen. Press quickly to change the letters until you reach the desired one. Press the **Clear** soft key to delete a letter.

5. Highlight the type of phone number you wish to save your entry as (Work Number, Mobile Number or Other).
6. Press the **Select** soft key.
7. Press the **Add** soft key to choose Name (which will already be highlighted).
8. Enter the name for the contact and press **OK**.
9. Press the **Save** soft key.

Edit a Contact

1. Press the **Menu** soft key, and then press the **Select** soft key to enter the Contacts menu (which is highlighted by default).
2. Select **Edit contact**.
3. Highlight the name of the contact you wish to edit, and then press the **Edit** soft key.
4. Highlight the part of the contact you wish to edit (Name, Mobile Number, Work Number, or Other).
5. Press the **Edit** soft key.
6. Make your changes and press **OK**.
7. You can choose to edit another part of the contact. When you are done, press the **Save** soft key.

Delete a Contact

1. Press the **Menu** soft key, and then press the **Select** soft key to enter the Contacts menu (which is highlighted by default).
2. Select **Delete contact**.
3. Select the name of the contact you wish to delete, and then press the **Delete** soft key.
4. Press the **Yes** soft key. The contact will be deleted immediately.

Use the Local Phonebook

Find and Call a Name

1. Press the **Menu** soft key, and then press the **Select** soft key to enter the Contacts menu (which is highlighted by default).
2. Select **Call** contact.
3. Highlight the name of the contact you wish to call or begin typing to search for a name, and then highlight it.
   **Note:** When a key is pressed, all of the letters, numbers and symbols that are stored in that key will show at the top of the display screen. Press quickly to change the letters until you reach the desired one. Press the **Clear** soft key to delete a letter.
What are basic instructions for using the Avaya 3720 Cordless Phone?

4. Press the Call soft key.

Change Audio Settings

Turn on Mute

- Press and hold the Sound off key for a few seconds. The phone will be muted and the party with whom you are speaking will not be able to hear you speak until you press and hold the Sound off key again.

Silence the Ring of an Incoming Call

A short press on the Sound off key before answering a call, silences the ring signal. The Sound off icon indicates a completely silenced telephone.

Note: Remember to answer the call by pressing the Off-hook key; otherwise, you will miss the call. Silencing the ring does not cause the call to be automatically answered.

Change the Volume during a Call

Press the Up or Down Navigation key to adjust the volume.

Change the Ring Tone

1. Press the Menu soft key.
2. Highlight the Settings menu, and then press the Select soft key.
3. Highlight Sounds and Alerts and then press the Select soft key.
4. Select Ring Signal, and then press the Select soft key.
5. Highlight Internal (within the GC) or External (outside of the GC), and then press the Select soft key.
6. Highlight a ring tone.
7. Press the Play soft key to preview the sound, and then press the Select soft key to choose that sound.
