Q. How Can I access GC network resources from home?

The GC network can’t be accessed from home but you can use Office 365 to get online access to email, Word, Excel. The CUNY Virtual Desktop (VDI) environment also allows users to remotely access course software anytime.

Q. Do you provide technical support for personal (home) computers?

OIT provides support for GC owned computers with GC asset tags only. If you need assistance with a personal computer, please contact your PC manufacturer or your software vendor.

Q. Is there a wireless connection available?

Yes. There are two wireless networks at the GC:
- **GCcommunity** is a secured and encrypted network (GC credentials are required).
- **GCguest** is an unsecured and unencrypted network available to everyone with no login requirements.

Q. What is Blackboard and how do I connect to it?

Blackboard is a course management system. It is a way for your instructors to provide you with information or interact with you in a class.

Please visit www.cuny.edu.
Hover over LOG-IN in the upper right and, in the drop down menu, click the BLACKBOARD link.

3. Click the Register for a New Account link.
4. Click Current Student.
5. Enter the required information and click the Next button.
6. On the following screen click Confirm if the data is correct. If you made a mistake, click Cancel and reenter your information.

Q. Who should I contact if I have questions about Student Web access or GC Library resources?

Student Web questions can be addressed by the Office of the Registrar, Room 7201, x7500.

Questions regarding GC Library resources can be addressed by staff at the Mina Rees Library, x7040.

Q. How do I retrieve my GC network and Office 365 email username?

- Once Registered, an account creation request will be sent to the IT department.
- When the request is received you will receive an email with your account information.

Note: Accounts are automatically created after registering for classes.

Q. What does a GC network account do?

A GC network account allows you access to GC computers, the Internet, and many GC-sponsored web services.

Q. How do I log in to the GC computers?

In order to access the GC computers, you need to know your domain, username, and password.

- **Domain** — all users use the GC domain
- **Username** — the first initial of your first name followed by your full last name (in some cases, followed by a number). For example, if your name is Rusty Staub, your username is: rstaub (or rstaub1)
- **Password** — initial-passwords are generated once you register. You will receive an email with your user name and your initial password information to log on.

Q. How do I change my Office 365 email password?

CUNY and Microsoft have activated a self-service password reset tool for you to use when you require an Office 365 password reset. As a prerequisite for using the tool, you must register your notification and contact preferences. This is a one-time process. Once you have registered your information, you will be able to use the self-service resource tool. The website to register is: http://aka.ms/ssprsetup.

Q. Where can I store my personal files?

- Students are provided with storage in their Office 365 One Drive account.
- You can also save files onto a USB flash drive.

Note: Files saved to the C:\ drives will be deleted.

Q. What programs are available on The GC computers?

For an updated list of available software, please visit the IT FAQ services page http://www.gc.cuny.edu/About-the-GC/Resources-Services/Information-Technology/FAQ

Q. Where can I find additional information?
