Q. Can I set up my home PC to access the GC network?
Yes. Remote services are available. For more information, visit our GC Portal and login on "Remote Computing" using your GC credentials
http://www.gc.cuny.edu/GC-Header/GC-Portal

Q. Do you provide technical support for personal (home) computers?
OIT provides support for GC owned computers with GC asset tags only. If you need assistance with a personal computer, please contact your PC manufacturer or your software vendor.

Q. Is there a wireless connection available?
Yes. There are two wireless networks at the GC:
- GCCommunity is a secured and encrypted network (GC credentials are required).
- GCguest is an unsecured and unencrypted network available to everyone with no login requirements.

Q. What is Blackboard and how do I connect to it?
Blackboard is a course management system. It is a way for your instructors to provide you with information or interact with you in a class.
Please visit the GC Portal and select Blackboard from the right side menu. You can also gain access to it from the CUNY Portal at www.cuny.edu

Note: If you don’t already have one, you must create a CUNY Portal account (www.cuny.edu) to gain access to Blackboard. This is different than your GC network account and gives you access to CUNY Wide services.

Q. Who should I contact if I have questions about Student Web access or GC Library resources?
Student Web questions can be addressed by the Office of the Registrar, Room 7201, x7500.
Questions regarding GC Library resources can be addressed by staff at the Mina Rees library, x7040.

Q. How do I retrieve my GC network and Office 365 email username?

- Once Registered, an account creation request will be sent to the IT department.
- When the request is received you will receive an email with your account information. (User-name and initial log in password) with-in 48-72 hours

Note: Accounts are automatically created within 48-72 hours after registering for classes

Q. What does a GC network account do?

A GC network account allows you access to GC computers, the Internet, and many GC-sponsored web services.

Q. How do I log in to the GC computers?

In order to access the GC computers, you need to know your domain, username, and password.
- **domain** — all users use the GC domain
- **Username** — the first initial of your first name followed by your full last name (in some cases, followed by a number). For example, if your name is Rusty Staub, your username is: rstaub (or rstaub1)
- **Password** — new student account passwords are retrieved by login into the Banner Self-Service system. You can login via the GC Portal and using your Banner ID and PIN.

Q. What is my Office 365 e-mail address and how do I log in to my e-mail account?

Your e-mail address is: username@gradcenter.cuny.edu
To check your Gradcenter e-mail, log into Office 365 at https://login.microsoftonline.com
Enter your username (Gradcenter email address) and password.

Note: Remember to sign out of Office 365 by clicking on the blank picture on the top right-hand side and selecting Sign Out.

Q. How do I change my GC network account password?

Self-Service Password Reset
- Use the GC’s Internet-based Password Reset service by visiting https://passwordreset.gc.cuny.edu/

Note: You must register and setup a digit PIN to manage your GC network account. IT Services does not reset passwords.

Q. How do I change my Office 365 email password?

CUNY and Microsoft have activated a self-service password reset tool for you to use when you require an Office 365 password reset. As a prerequisite for using the tool, you must register your notification and contact preferences. This is a one-time process. Once you have registered your information, you will be able to use the self-service resource tool. The website to register is: http://aka.ms/ssprsetup.

Q. Where can I store my personal files?

- Students are provided with storage in their Office 365 One Drive account.
- You can also save files onto a USB flash drive

Note: Files saved to the C:\ drives will be deleted.

Q. What programs are available on The GC computers?
