Optional Practical Training Workshop
Welcome!

Please turn off your cell phone or set it to silent or vibrate.
If you must make or take a call, please go outside the classroom to do so.
Purpose of this Workshop

• To assist F-1 status students nearing the end of their academic programs to understand the application process for post-completion Optional Practical Training (OPT).
• To present an overview of the STEM OPT extension.
• For students of the CUNY Graduate Center and the Craig Newmark Graduate School of Journalism at CUNY.
• Post-completion OPT is an initial 12-month period of employment authorization for F-1 students who have completed their programs of study.
• STEM OPT is an additional 24-month period of work authorization available to F-1 students, currently on a period of OPT, who have a degree in a STEM field and who work in paid employment for an E-Verify employer.

Office of International Students
Who is eligible for post-completion OPT?

- To apply for post-completion OPT, a student must be in F-1 student status.
- The student must have completed at least one academic year (two semesters) as a lawfully-enrolled, full-time student.
- If a student has had post-completion OPT at a lower academic level than their current level, they may be eligible for another period of OPT.
- If a student has had a previously-authorized 12-month period of post-completion OPT at their current or higher educational level, they are not eligible to apply for another period of post-completion OPT.
- If a student has been authorized for one year of full-time CPT at their current degree level, they are not eligible to apply for OPT.

Office of International Students
When to Apply for OPT?

• A student has a 150-day range in which to make an application for post-completion OPT. The application can be received by the USCIS from 90 days prior to the student’s completion date until 60 days after the completion date.

  NOTE: The application cannot arrive at USCIS more than 90 days before the completion date!

• While it is recommended the student apply as early as possible, the latest an OPT application can be received by the USCIS is 60 days after the student’s completion date.

• The program completion date also determines the day the student may ask for as the starting date for the period of OPT. The OPT starting date can be from the day after the student’s completion date up to 60 days after the completion date.

Office of International Students
How to Determine the Completion Date?

• The completion date is the estimated date that the student’s academic advisor expects the student to complete all requirements for the degree.

• The academic program will indicate when it expects the student to complete their program of study on the OPT Request Form. Our office defers to the academic program’s expectation of when the student will complete the program of study.

• For master’s students, the completion date may be the completion of course work or a capstone project or thesis submission.

• For doctoral students, the completion date is usually the day the student plans to deposit the dissertation. Though there are exceptions.

- Pursue their STEM OPT extension through an employer that is enrolled in USCIS's **E-Verify program**.

- Select a STEM OPT employer that provides the student with formal training and learning objectives, as evidenced by a completed I-983, Training Plan.

- Have a job offer for paid employment for a minimum of 20 hours per week per employer.

- The employment must be a bona fide employer-employee relationship.

Office of International Students
Bona Fide Employer-Employee Relationship

According to the DHS, students cannot qualify for STEM OPT extensions unless they will be bona fide employees of the employer signing the Training Plan, and the employer that signs the Training Plan must be the same entity that employs the student and provides the practical training experience.

There are several aspects of the STEM OPT extension that do not make it apt for certain types of arrangements, including:

- multiple employer arrangements
- sole proprietorships
- employment through “temp” agencies***
- employment through consulting firm arrangements that provide labor for hire, and***
- other relationships that do not constitute a bona fide employer-employee relationship.
August 2018 Guidance:

DHS is clarifying that STEM OPT participants may engage in a training experience that takes place at a site other than the employer’s principal place of business as long as all of the training obligations are met, including that the employer has and maintains a bona fide employer-employee relationship with the student. DHS will review on a case-by-case basis whether the student will be a bona fide employee of the employer signing the Training Plan, and verify that the employer that signs the Training Plan is the same entity that employs the student and provides the practical training experience."
Staffing and temporary agencies and consulting firms may seek to employ students under the STEM OPT program, but only if they will be the entity that provides the practical training experience to the student and they have and maintain a bona fide employer-employee relationship with the student. STEM OPT participants may engage in a training experience that takes place at a site other than the employer’s principal place of business as long as all of the training obligations are met, including that the employer has and maintains a bona fide employer-employee relationship with the student. As noted in the 2016 STEM OPT rule, certain types of arrangements, including multiple employer arrangements, sole proprietorships, employment through “temp” agencies, employment through consulting firm arrangements that provide labor for hire, and other similar relationships may not be able to demonstrate a bona fide employer-employee relationship and, therefore, may not meet the requirements of the STEM OPT extension. See 2016 STEM OPT Final Rule (p. 13079).

STEM OPT Reminders

There is a 90-day range to apply for STEM OPT.

The earliest the application can arrive at USCIS is 90 days prior to expiration date of the EAD. The latest an application can be received by USCIS is the expiration date of the EAD.

The application must be received by USCIS no later than 60 days from the date the DSO issues the I-20 with the STEM OPT recommendation.

An application for the STEM OPT extension cannot be made during the 60-day grace period after the end of the OPT period.

The employment must be paid employment of at least 20 hours per week.

There must be bona fide employer-employee relationship; no self employment, no volunteering, no temp agencies, no consulting labor for hire.

The prospective STEM OPT employer must have E-Verify & EIN numbers.

Additional 60 days of unemployment for a possible total of 150 days.

If a timely application has been made for STEM OPT, the student may work past the end date of the EAD for up to 180 days.

Office of International Students
Reporting Requirements During STEM OPT

An F-1 student on a period of STEM OPT is required to report the start and end of all employment as well as changes in personal information such as name, address, email address and telephone number.

These changes must be reported to the OIS within 10 days of the change using the [STEM OPT Reporting Form](#).

Students on STEM OPT must confirm their personal and employment information every six months using the STEM OPT Reporting Form, even if there have been no changes.

Students on STEM OPT must complete two annual self evaluations, which are on page five of the I-983. Evaluations are submitted to the OIS with the 12-month and 24-month STEM OPT Reporting Forms.

A new I-983 training plan must be submitted to begin a new job while on STEM OPT or if there has been a material change in the terms and conditions of the current employment.
Material Changes to the Form I-983

Both STEM OPT students and employers are obligated to report to the DSO material changes to, or material deviations from, the student’s formal training plan.

Material changes or deviations may include, but are not limited to:

- Any change of the employer’s Employer Identification Number, (i.e., the company’s Federal Tax ID number) resulting from a change in the employer’s ownership or structure.
- Any reduction in student compensation that is not tied to a reduction in hours worked.
- Any significant decrease in hours per week that a student engages in a STEM training opportunity.
- Changes to the employer’s commitments or student’s learning objectives as documented on the Form I-983.

So long as the STEM OPT student and employer meet the regulatory requirements and the modified Form I-983 meets the specified requirements, the student’s employment authorization will not cease based on a change to the plan.
