Language Project

Do you wonder about your child’s language development?

Are you and your child interested in science?

Do you enjoy helping others?

- **Goal:** to understand childhood language disorders and what causes them.
- **Who we are:** Scientists, trained doctoral students, and Speech-Language Pathologists interested in learning how children with and without language problems learn.
- **What we do:** We conduct fun activities that explore how children perceive, process, and produce speech and language!

**OUR QUESTIONS**

How do children understand complex language?
What does tracking eye movements tell us about how children organize words and use language?

**DETAILS**

- Children must be 6-12 years old
- Spoken English must be the primary language used at home
- Participants receive up to **$30** for each session ($15 per hour) plus MTA metrocards
- Written results of language and hearing tests will be mailed

**WHAT IS INVOLVED?**

Hearing Screening
Standardized Language Tests
Computer Activities
PRIZES!
