WE ARE CONDUCTING RESEARCH TO STUDY CHILDREN’S MEMORY AND LANGUAGE

We are looking for volunteers:

- 8-11 year old children with a history of language impairment.
- Typically developing 8-11 year old children with no history of language, neurological, or emotional impairments.
- Spoken English must be the primary language.

Benefits:

- You will receive $10 per hour.
- You will help us to better understand language and memory functions in children with and without language impairment.

Procedure:

Your child will participate in 1 to 4 sessions lasting 1 to 2 hours per session, either at the CUNY Graduate Center – 365 Fifth Avenue (5th Ave and E. 34th St.), NYC – or at a location convenient to you. Your child will read word lists and will respond to questions and directions.

Contact:

If you are interested in participating or for more information, please contact us:
