Calling Children 7-11 years old with Normal Hearing or Cochlear Implants

Participate in Research! Earn $15/hour
Help learn more about language by playing fun games
Receive a written report of language and hearing screening

Through computer-based picture naming and understanding tasks, as well as the use of our new eye tracker, we are learning about how children with cochlear implants, and their normal hearing peers, process language.

This is part of a 5-year study funded by the National Institute on Deafness and Other Communication Disorders of the National Institutes of Health.

To participate or for more information please contact:
New York Eye & Ear Infirmary’s Language and Hearing Research Laboratory
380 2nd Ave, 9th Floor (Between 21st and 22nd Streets)
