Queens College
Campus/Affiliation

Benjamin Gray
Additional Committee Member (If Applicable) (Please Print)

Stony Brook University
Campus/Affiliation

Mary Black
Additional Committee Member (If Applicable) (Please Print)

University of Toronto
Campus/Affiliation

To the Student: Please attach a summary of your proposed research to this form. State its purpose and a general statement of the method to be employed. This statement should be approximately half a page. A good basic model includes a paragraph on the problem area to be researched and one on the intended type of research design.

The Statement and the Dissertation Topic Form should be sent as email attachments to [Jude Kubran](mailto:Jude.Kubran@gc.cuny.edu) jkubran@gc.cuny.edu for processing and signature.

To the Committee Chair: I have read Jane Smith's topic proposal and have discussed it in detail with the student. In my judgment it (1) meets the minimum standards required for the formulation and design of a research problem; (2) is practically feasible in terms of available space, equipment, and the number and type of subjects available; and (3) does not involve procedures that would violate the code of ethics prescribed by the American Psychological Association.
