emails: dwhalen@gc.cuny.edu, whalen@haskins.yale.edu

Teaching, Research and Management Experience:

- 2014- Adjunct Professor, Dept. of Linguistics, Yale University.
- 2011- Distinguished Professor, City University of New York. Classes: Speech Science, Speech Perception, Speech Production, Articulatory Phonology, Birds and Babies: The Acquisition of Communication.
- 2006-2008 Program Director, Documenting Endangered Languages and Cognitive Neuroscience. US National Science Foundation (NSF), Arlington, VA., USA.
Responsible for distributing \$10m/year in funding for the two programs.
Organized and directed an international strategic planning meeting of endangered language funders and researchers, “Documenting Endangered Languages,” Hanover, NH, USA, October 2007.
Directed an international workshop on the mirror neuron theory of autism, Arlington, VA, July, 2007.
Contributed to NSF initiatives: Science of Learning Centers, Partnerships for International Research and Education, Complexity Working Group.
Contributed to inter-agency efforts: NSF/NIH ([U.S.] National Institutes of Health) Collaborative Research in Computational Neuroscience, multi-agency Interagency Neuroscience Working Group, and [U.S.] National Endowment for the Humanities “Million Book Challenge Working Group.”
- 2000- Vice President of Research, Haskins Laboratories.
Coordinate research activities within the Laboratories, including exploration of new funding sources, internal review of proposals, assistance with management of awards, strategic planning, and management of personnel.
Led donation-based fundraising program, 2005.
Headed the management team for relocation of the Laboratories, including site determination, architectural layout, and logistic implementation (2004-2005).
- 1996-2023 Principal Investigator, “Links between production and perception in speech,” [U.S.] National Institute on Deafness and Other Communication Disorders.

- 2020-2022 Principal Investigator, “Language Learning in Native American Revitalization Programs (LLiNARP)” [U.S.] National Science Foundation. Porter Swentzell, Peggy Mainor, co-PIs.
- 2019-2021 Co-Principal Investigator, “Workshop: 12th International Seminar on Speech Production” [U.S.] National Science Foundation. Mark K. Tiede, Vincent L. Gracco, co-organizers.
- 2018-2019 Principal Investigator, “Workshop: Advancing Research in Phonology via Articulatory Phonology (ARP_AP)” [U.S.] National Science Foundation. Louis M. Goldstein, Adamantios I. Gafos, co-organizers.
- 2014-2021 Principal Investigator, “Improving clinical speech remediation with ultrasound technology,” [U.S.] National Institute on Deafness and Other Communication Disorders. Co-Principal Investigator: Suzanne Boyce, University of Cincinnati.
- 2014-2016 Principal Investigator, “A Common Prosody Platform for Testing Theories and Models of Speech Prosody,” [U.S.] National Science Foundation. Co-Principal Investigator: Yi Xu, University College, London.
- 2014- Director, Healing Through Language initiative, Endangered Language Fund. (healingthroughlanguage.org).
- 2010-2015 Principal Investigator, “From Endangered Language Documentation to Phonetic Documentation,” [U.S.] National Science Foundation.
- 2012-2015 Principal Investigator, “Collaborative Research: Automatically Annotated Repository of Digital Video and Audio Resources Community (AARDVARC),” [U.S.] National Science Foundation; Damir Cavar, Helen Aristar-Dry and Anthony Aristar, co-Principal Investigators.
- 2011-2012 Principal Investigator, “An Ultrasound Investigation of Consonant Harmony in Tahltan (tth),” [U.S.] National Science Foundation.
- 1995-2009 Co-Principal Investigator, “Ontogeny of attunement to the language environment,” [U.S.] National Institute on Deafness and Other Communication Disorders, Catherine T. Best, Principal Investigator.
- 2001-2006 Subcontractor, Electronic Metastructure for Endangered Languages Data (E-MELD) grant, [U.S.] National Science Foundation; Helen Aristar-Dry and Anthony Aristar, Principal Investigators.
- 2004 Principal Investigator, “Shared Instrumentation Grant: Aloka SSD-5500 Ultrasound machine,” [U.S.] National Center for Research Resources.
- 1991-1994 Principal Investigator, “Effects of word frequency and the common/proper dimension in speech,” [U.S.] National Institute on Deafness and Other Communication Disorders.

- 1984 Lecturer in Linguistics, Yale University.
- 1982- Senior Scientist at Haskins Laboratories, New Haven, Connecticut. Research topics include speech perception, speech production and neural imaging.
- 1982-1990 Supervision of the research efforts of visiting scholars using the Laboratories' equipment under an NIH contract.
- 1983-1986 Co-Principal Investigator, "Perceptual bases of stress-timing," [U.S.] National Science Foundation, Carol Fowler, Principal Investigator.
- 1981 "Introduction to Linguistics," Yale University, Summer Session.
- 1980 "Introduction to Linguistics," Yale University, Summer Session.
- 1977-1978 Teaching Assistant for Introductory Courses, Yale University.
- 1978-1982 Research Assistant at Haskins Laboratories, New Haven, Connecticut. Research, leading to dissertation, on the processing of speech with mismatched information, and on the integration of several cues to one phonetic category.

Education:

- B.A. Rice University (cum laude) 1976
 (Four full majors completed: Linguistics, English, Anthropology, German)
- M.A. Yale University 1978 (Linguistics)
- M.Phil. Yale University 1979 (Linguistics)
- Ph.D. Yale University 1982 (Linguistics)
 Dissertation Title: *Perceptual Effects of Phonetic Mismatches*
 Dissertation advisor: Dr. Alvin M. Liberman

Dissertation Committees:

Chair:

- 2021 Jaekoo Kang, City University of New York.
- 2021 Boram Kim, City University of New York.
- 2020 Katherine M. Dawson, City University of New York.
- 2019 Ai Mizoguchi, City University of New York.
- 2018 Micalle Carl, City University of New York.
- 2015 Eric Jackson, City University of New York.
- 2013 Rebecca Buccheri, City University of New York.
- 2007 Sara Giulivi, University of Florence.
- 2007 Heike Lehnert-LeHouillier, University at Buffalo.

Reader:

- 2021 Chaye Nove, City University of New York.
- 2021 Sejin Oh, City University of New York.
- 2018 Stephanie Kakadelis, City University of New York.

- 2018 Emily Long Olsen, City University of New York.
 2016 Marissa Barrera, City University of New York.
 2016 Vikas Grover, City University of New York.
 2014 Timothy Mathes, New York University.
 2014 Anneke Slis, University of Toronto.
 2014 Ylana Beller Marino, City University of New York.
 2013 Michela Cresci, City University of New York.
 2013 Yan Yu, City University of New York.
 2012 Yining Victor Zhou, City University of New York.
 2011 Yana Gilichinskaya, City University of New York.
 2011 Kikuyo Ito, City University of New York.
 2010 Shari Berkowitz, City University of New York.
 2010 Mark Antoniou, University of Western Sydney.

Professional Service:

- 2020 Co-Organizer, “12th International Seminar on Speech Production,” December, 2020. Online event.
 2019 Co-Organizer, Workshop on “Advancing Research in Phonology via Articulatory Phonology (ARP_AP),” July, 2019. Pacific Grove, CA.
 2017-2019 Guest editor, special issue of *Journal of Phonetics* on Voice Onset Time (VOT).
 2016- Chair, Board of Directors, Endangered Language Fund.
 2016- Phonetics editor, Oxford Online Research Encyclopedia of Linguistics.
 2015-2019 Member, National Institutes of Health (US) Study Section Language and Communication (LCOM).
 2013- Editorial Board, *Phonetica*.
 2013 Co-Organizer, Workshop on “Automatically Annotated Repository of Digital Video and Audio Resources Community (AARDVARC),” Ypsilanti, Michigan, May 2013, and New York, New York, October 2013. Funded by NSF.
 2012 Co-Organizer, Workshop on “Prosody of the Wider World (ProWW),” Cologne, Germany, May 2012. Funded by the Volkswagen Foundation.
 2012-2015 Nominating Committee, Linguistic Society of America (chair: 2013-4).
 1995-2015 Founder and President, **The Endangered Language Fund**, Inc. www.endangeredlanguagefund.org
 This NGO provides grant support in two programs; one, aimed at scholars and activists worldwide, enables work on any of the world’s 6,000 or so endangered languages, while the other is intended for members of US Native American tribes who are descended from those contacted by the Lewis and Clark Expedition of 1803-1806.
 2009-2014 Member, Electorate Nominating Committee, Section Z (Linguistics), American Association for the Advancement of Science.
 2007- Editorial Board, *Journal of Phonetics*.
 2004- Member, Committee on Endangered Languages and their Preservation, Linguistic Society of America.
 1999-2007 Associate Editor, *Journal of Phonetics*.
 2008 Co-editor (with Joyce McDonough) of a special issue of *Journal of Phonetics* on the phonetics of Native North American languages.

1990-1992 Member, Review Committee for the journal *Language*, Linguistic Society of America.

Journal Reviewer for: *Journal of the Acoustical Society of America*; (*Attention*), *Perception and Psychophysics*; *Science*; *Journal of Speech, Language and Hearing Research*; *Psychological Review*; *Journal of Phonetics*; *Phonetica*; *Language and Speech*; *Neuropsychologia*; *Language*; *Perceptual and Motor Skills*; *Infant Behavior and Development*; *Journal of Cognitive Neuroscience*; *Journal of Memory and Language*; *Behavior Research Methods (, Instruments and Computers)*; *Studies in Second Language Acquisition*; *PLOS ONE*; *Journal of Cognition*; *Frontiers in Psychology*; *Language, Cognition and Neuroscience*.

Grant reviewer for: VolkswagenStiftung (as a regular panelist); National Science Foundation (NSF; US); National Institutes of Health (NIH; US); European Science Foundation EUROCORES Programme; Natural Sciences and Engineering Research Council (NSERC; Canada).

Honors:

2017 Labex EFL International Chair, Laboratoire de Phonétique et Phonologie (LPP) – Université Sorbonne Nouvelle, Paris.

2013-2008-2007 Fellow, American Association for the Advancement of Science.

2008-2007 Fellow, Acoustical Society of America.

2007 Director's Award for Program Management Excellence, National Science Foundation.

Invited Lectures:

- "Uses of Variability in Speech and Birdsong," York College, November, 2020.
- "Variability and central tendencies in speech production," Séminaires de Recherches en Phonétique et Phonologie, Paris, October, 2020.
- "Healing Through Language: Positive health benefits from language maintenance and revitalization," The International Year of Indigenous Languages 2019: Perspectives, Fort Wayne, IN, October, 2019.
- "Characteristics and usefulness of phonetic variability," University of Toronto, October, 2017.
- "Characteristics and usefulness of phonetic variability," University at Buffalo, October, 2017.
- "Characteristics and usefulness of phonetic variability," McMaster University, October, 2017.
- "Phonetic results from endangered language archives," Laboratoire de Phonétique et Phonologie, la Sorbonne Nouvelle, Paris, May, 2017.
- "The uses of phonetic variability," a series of four lectures, Laboratoire de Phonétique et Phonologie, la Sorbonne Nouvelle, Paris, under the auspices of LabEx-EFL (Empirical Foundations of Linguistics), April-May, 2017.

- “Characteristics and usefulness of phonetic variability,” University of Western Sydney, March, 2017.
- “Characteristics and usefulness of phonetic variability,” Macquarie University, March, 2017.
- “Variability of speech production in typical speakers: Implications for motor control and speech deficits,” La Trobe University, February, 2017.
- “Phonetic results from endangered language archives,” University of Melbourne, February, 2017.
- “Phonetic results from endangered language archives,” La Trobe University, February, 2017.
- “Variability of speech production in typical speakers: Implications for motor control and speech deficits,” La Trobe University, February, 2017.
- “Variability of speech production in typical speakers: Implications for motor control and speech deficits,” New York University, November, 2016.
- “Speech science in the clinic,” Molloy College, March, 2016.
- “Ultrasound investigation of speech articulation dynamics,” University of Western Sydney, April, 2010.
- “An Articulatory Phonology account of preferred CV combinations in babbling,” Macquarie University, April, 2010.
- “Links between production and perception in speech,” City University of New York, March, 2010.
- “From endangered language documentation to phonetic documentation,” New York University, December, 2009.
- “Disappearing languages: Why it matters and what it means,” Café Scientifique, National Science Foundation, Arlington, VA, USA, February 2008.
- “Vowel space parameters,” Acoustical Society of America, New Orleans, USA, November 2007.
- “Gestures, features, and mirror neurons”, CONTACT, Lecce, Italy, June 2007.
- “Perception research at Haskins Laboratories.” Institut de Communication Parlée, Grenoble, November 2005.
- “Funding language documentation and revitalization initiatives.” Cornell Conference on Language and Poverty, Ithaca, USA, October 2005.
- “Neurological evidence for a speech mode of perception.” Biennial Rodin Academy Conference: Cultural and Neural Aspects of Language, Reading, and Dyslexia, Beijing, August 2004.
- “How the study of endangered languages will revolutionize linguistics.” Plenary lecture, International Congress of Linguists, Prague, July 2003.
- “Who owns this language?”, Ohio University, USA, April 2002.
- “Occam's razor is a double-edged sword: Reduced interaction is not necessarily reduced power.” Spoken Word Access Processes (SWAP). Max Planck Institute for Psycholinguistics, Nijmegen, May 2000.
- “A sex difference in audiovisual integration of speech.” Max Planck Institute for Psycholinguistics, Nijmegen, January 1999.
- “What duplex perception tells us about speech perception.” Callier Center, University of Texas, Dallas, USA, April 1997.
- “Universal and developmental aspects of intrinsic F0 of vowels.” University of North Carolina, Chapel Hill, USA, April 1997.
- “The use of breath sounds in speech normalization.” (with Sonya Sheffert) Workshop on Talker Variability and Speech Processing, Indianapolis, USA, September 1995.

- “Hot topics in speech communication.” Acoustical Society of America, Washington, DC, May 1995.
- “Universal and developmental aspects of intrinsic F0 of vowels.” Research Laboratory of Electronics, M.I.T., October 1994.
- “Intrinsic F0 in the world's languages.” Institut de Communication Parlée, Grenoble, June 1994.
- “Effects of word frequency on pronunciation.” Department of Psychology, Free University, Brussels, May 1993.
- “Coarticulation is largely pre-planned.” Research Laboratory of Electronics, M.I.T., October 1988.
- “Coarticulation is largely pre-planned.” Department of Linguistics, University of Michigan, September 1988.
- “Vowel and consonant judgments are not independent when cued by the same information,” Department of Linguistics, University of Texas, Austin, USA, August 1988.
- “Coarticulation is largely pre-planned.” Department of Psychology, University of British Columbia, November 1987.
- “Integrating versus disposing theories of language.” Department of Linguistics, The Ohio State University, March 1983.
- Invited Discussant at the Symposium “Metaphor as Process,” at the Annual Meeting of the American Psychological Association, Montreal, September 1980.
