M.S. PROGRAM IN COGNITIVE NEUROSCIENCE

3D PRINTER PERMISSION FORM

THE GRADUATE CENTER, CUNY

Student Agreement Regarding 3D Printer Use (Voluntary)

I understand that in my capacity as a student of The City University of New York's Graduate Center, whether as a full-time, part-time, or visiting student, I am restricted from using the M.S. in Cognitive Neuroscience Program's 3D printer in any capacity or within any time period for which I have not received advanced and explicit authorization from the department's Assistant Program Officer (APO).

Specifically, I am aware that any use of this machine that has not been expressly described in my request for permission's statement of purpose is to be considered strictly prohibited. Impermissible behaviors include the printing of unapproved objects by authorized users, the printing of ANY objects by unauthorized users, AND any action that is knowingly taken for the purpose of enabling, encouraging, or permitting another individual to make use of the printer in a manner that would constitute a violation of these terms.

Additionally, I am aware of my responsibility to inform the program's APO or college assistants of any damages or technical issues that may arise during my use of the printer, and I understand that any attempt to repair the printer on my own may be considered misuse.

In voluntarily signing this agreement, I am asserting my willingness to both abide by these terms of use, and to assume liability for any damages that are incurred by either myself, an unauthorized user, or any CUNY property, if that damage is derived from an incident in which I am found to have been acting in violation of this agreement. Lastly, I acknowledge that even in the absence of damages, any violation of this agreement may be considered grounds for possible student disciplinary action.
