Introduction

This practical guide is intended for students pursuing the Master of Arts in Liberal Studies (MALS) at The Graduate Center, CUNY. Students should also peruse the Graduate Center (GC) Student Handbook, which is also available in hard copy from the Office of Student Affairs, room 7301. If students have any questions, feel free to ask any of the staff or faculty.

Students are responsible for regularly checking the following websites for announcements and information:

- **MALS Program** – events, courses, faculty, Thesis/Capstone, advisors
- **Registrar** – forms, academic calendars, links to all Student Services’ websites
- **CUNYfirst** – access the Student Center to register for classes, bill management, etc.
- **Library** – access, important Thesis/Capstone guidelines and deadlines, MALS library guide

The MALS student listserv, which the program uses to notify students of essential program information is an excellent source for more information about the program and events.

Basic Information,

**M.A. Program in Liberal Studies**

The Graduate Center  
365 Fifth Avenue, Suite 4108  
New York, NY 10016–4309  
Tel: (212) 817-8480  
Email: liberalstudies@qc.cuny.edu

- Students need to have their GC ID to enter the building.
- Students should know their EMPL ID to access various services at the GC.
- The MALS Office is located on the 4th floor.
- All Graduate Center (GC) phone numbers begin (212) 817-xxxx. The final four numbers are the extensions (e.g., the MALS Program ext. is "8480") and can be dialed from any GC phone simply by dialing those four numbers.

A. The Program Officers and Staff

(*) Dr. Elizabeth Macaulay is on fellowship leave for Spring 2023. Kindly contact Dr. David Humphries for any questions or concerns.)

MAL'S Overview

MAL'S is designed to encourage and support challenging intellectual pursuits that cross conventional academic boundaries and provide the flexibility to go where professional and academic objectives, curiosity, and intellect lead.

Students are expected to follow this general course sequence:

- **MAL'S 70000 Seminar in Interdisciplinary Studies:** This course should be taken in the first calendar year of enrollment, preferably in the first semester. (3 credits)
- **Concentration-specific core courses:** If these courses are cross-listed, students must register for the MAL'S course number. (6 credits)
- **Elective courses:** These are courses chosen from those offered by the doctoral, master's, and certificate programs at the Graduate Center. Students may take core courses for other MAL'S concentrations as electives. (18 credits)
- **MAL'S 79000 Thesis/Capstone Project:** Students register for thesis advising during their final semester with a professor who will act as their advisor. Students may register for this course by permission of the department only. (3 credits)

**Optional Courses**

- **MAL'S 73800 Internship Course:** Students must apply for the internship the semester before enrolling. The internship course can be taken as an elective course. (3 credits)
- **MAL'S 72000 Thesis Writing Course:** This course is open to all MAL'S students with 24 credits or more who are working on their theses. Students in this course give and receive feedback. Permission of the department is required to register. (3 credits)

Students may not enroll in the same MAL'S course multiple times for credit.

Most classes meet once a week at the Graduate Center. The modality of all courses is listed in CUNYFirst. Some classes may meet only online, and some classes, designated hybrid, may meet online some weeks. All courses must have GC course numbers and must be offered through the GC. With the permission of the executive officer, MAL'S students may e-permit to enroll in a maximum of two graduate-level courses at another CUNY campus. MAL'S students who have taken MAL'S 70000 and completed at least one year of coursework may be permitted to take courses for credit at other universities.

Students are required to be in status each term. This means that students must either be registered (please see Maintenance of Matriculation section below) or be on an approved Leave of Absence.

Officially, MAL'S students should complete their degrees within 8 semesters. However, many of our students take longer than 8 semesters since many take one or two course at a time.
Students who have been in the program for more than 8 semesters will receive a "time to degree" Satisfactory Progress Hold from the Graduate Center. This hold must be lifted in order for a student to register. Please contact the DEO if you receive notice that you have a satisfactory progress hold. Send the DEO an email explaining your plans for completion and the DEO will lift the hold. Once the hold is lifted, students will be allowed to register for subsequent semesters.

Registration
Registration information, including course descriptions and other pertinent information, is posted on the website prior to the start of each semester. All students should review the academic calendar for the registration dates. The latest course offerings are posted online on the CUNYFirst Class Search. All student registrations are done online via CUNYFirst. Not every course is offered each semester, so it is important to be aware of when MALS core courses are being offered. If core courses are not taken when they are offered, this may delay the completion of the degree because these courses are not always offered in consecutive semesters.

Advisement
The MALS Advising Fellows will provide individualized academic support to MALS students, guiding them in choosing courses, managing their workloads, meeting academic challenges, and enlisting faculty mentors to supervise their theses. Enrolled MALS students will be assigned an advising fellow.

Advisement Holds
- **New students** will have an advisement hold placed on their accounts. They must attend an advising session to remove the hold so that they can register. These sessions will take place in August for students beginning in the Fall and in January for students beginning in the Spring.
- **Continuing students** will have an advisement hold placed on their account each Spring. Students may also be asked to complete a short survey to have their New Student hold lifted. Continuing students are required to come in for an advisement meeting toward the end of the spring semester to register for the fall semester — after this meeting, their advisement hold will be lifted.
- Registration information will be sent via the MALS Student Listserv.

Satisfactory Progress Holds
Students need to be in good standing to register. A student may have a hold on his/her account for several reasons:

Academic Holds
- Students' records are evaluated at the end of each semester. Students are considered to be making satisfactory progress towards their degree by maintaining a 3.0 (or B) average or better, having no more than two open grades (incompletes or no grades), and by not exceeding the time to degree (a period of eight semesters). Students may not exceed twelve semesters registered in the program or maintaining matriculation without prior approval of the Executive Officer. If any of these conditions are not met, a student will have a satisfactory progress hold.
All students are notified of holds by the Vice President for Student Affairs via email.
If a student has a satisfactory progress hold, they should contact the Deputy Executive Officer to resolve the issue.
The hold must be removed BEFORE students can register and should be resolved before the start of the next semester after a student is notified of an academic hold.

Non-Academic Holds
- Various GC offices can place holds for different reasons (Admissions for missing transcripts, Bursar for payment issues, Wellness for immunization records, Library for late fees, etc.).
- Note that the MALS program can only help resolve academic holds.

Transfer Credits
The MALS program will consider accepting up to 12 credits of recent graduate-level work earned at another program or at the Graduate Center prior to matriculation. These credits cannot have counted for a previous degree and cannot have been taken as an undergraduate. Transfer credit requests are due by the Friday of the 3rd week of the semester and will then be reviewed by EO and DEO. Students should expect to hear about the outcome of their requests by the middle of the semester. Transfer credit requests cannot be assessed until a student is enrolled in the program. These credits may not be used for the MALS 70000 course.
- Students must submit a Transfer Credit Request Form plus a copy of their transcript to MALS Assistant Program Officer, Kathy Koutsis, kkoutsis@gc.cuny.edu (Room 4106).
  - The course(s) must have been completed with a grade of B or higher.
  - The course(s) must be comparable to courses offered by the GC.
  - Requests to transfer courses must made during a student’s first semester in the MALS program. An evaluation of previously earned credits may be made before the end of the student’s first year in the program.

Class Permissions
If a course offered by another department is closed or has restrictions, interested students should get in touch with the instructor for permission to enroll. Once the instructor’s permission has been obtained, students should arrange for a “class permission” by emailing the Assistant Program Officer of the department offering the course (make sure to include your CUNYFirstID).

Please always be polite when emailing faculty members and administrators at the GC. The Career Services Website has good information about proper etiquette when emailing faculty members and potential employees that can be consulted.

Registering for English or Comparative Literature Department Courses
The English and Comparative Literature departments offer a 2-credit option for most of their courses, which is only available to doctoral students enrolled in those Ph.D. programs; MALS students should choose the 4-credit option when registering for English or Comparative Literature courses. When registering for variable-credit courses, the registration will be processed automatically for the lowest credit value available. MALS students must change this
credit value by clicking on the credit number in the registration screen. **Registering for the 2-credit course will not count towards your MALS degree.**

**Grading vs. Pass/Fail**
In order for a class to count for the degree, students must be graded on an A-F scale. The only exception is MALS 79000, the **Thesis/Capstone Project** which is graded on a Pass/Fail basis.

**Add/Drop Period**
During the first week of each semester, students have the option of adding courses to their initial program and of dropping courses. During the second and third weeks, students may freely drop courses. Adding courses during the second and third weeks of the semester requires the permission of the academic program and/or instructor. From the third to tenth week of the term, if a student elects to withdraw from a course, a **Course Withdrawal Form** should be submitted to the Registrar. A grade of “W” will be assigned, and the student remains liable for tuition.

*Dropping a course may result in a change to a student’s financial aid. Please check with Financial Aid (on the 7th floor) before dropping any courses if you receive financial aid.*

**Incomplete Grades**
To resolve incomplete grades, students must fulfill their obligations within one calendar year after completion of the course. After one year, an incomplete (“INC”) will automatically become a permanent incomplete; extensions will be granted only in exceptional circumstances upon written application and with the permission of the faculty member, the Executive Officer, and the Vice President for Student Affairs. MALS can only help to resolve incompletes in courses that are offered by MALS. Permanent incompletes will accrue no credit.

Students with more than two incomplete courses will be brought to the attention of their Executive Officer to determine whether or not they are making satisfactory progress. Students will not normally be regarded as making satisfactory progress toward their degrees if they have more than two “INC”s on their records. FIN grades are counted as a 0.00 in calculating GPAs. *(Please see the section on Satisfactory Progress Holds above).*

**Maintenance of Matriculation**
Students who have completed the 27 credits for the degree but need an additional semester to complete the thesis (3 credits), should register for “Maintenance of Matriculation.”

If a student is not taking a course during a semester but would like to maintain their email and library privileges, they should also register for “Maintenance of Matriculation.”

An advisement holds maybe in place that would not let you register for Maintenance of Matriculation; however this can be lifted by emailing your MALS advising fellow, the MALS APO or the MALS college assistant. Again, students may not exceed twelve semesters registered in the program or maintaining matriculation without prior approval of the Executive Officer.
Applying for Readmission
A student who is not registered for courses or Maintenance and Matriculation and is not on an approved Leave of Absence will be withdrawn from the program.

Readmission following a withdrawal is at the discretion of the MALS program. A special Application for Readmission form must be submitted to Kathy Koutsis (room 4106) for approval by the MALS Executive Officer. A $20 readmission fee will be assessed. If you withdrew from the program more than five years ago, please get in touch with the program or admissions committee as additional information and records may be required.

Please view the academic calendar on the Registrar's webpage for the deadline to submit the Readmission form (early January for Spring readmission, late spring for Summer readmission, early August for Fall readmission).
About Courses

**MALS 70000 - Seminar in Interdisciplinary Studies**

Course description:
This course presents an interdisciplinary method as a tool for academic study. It is a topics class. This means that each faculty who teaches the course will choose a subject of study related to their own research and design a syllabus that explores that topic through a range of disciplinary and interdisciplinary lenses. The class is designed to help students understand both disciplinary and interdisciplinary research, academic writing, and methodology. It is also designed to support students as they develop their own interdisciplinary research strategies and hone their written, oral, and analytic skills. Students will write frequently in this class. They will also be encouraged to begin thinking about their culminating thesis/capstone projects. One or more visiting faculty may be invited to speak about their research, writing, and methodology.

Rationale:
The course provides Master’s students in different areas of concentration with common experience and a common ground for thinking about interdisciplinary studies and academic research. While specific reading and writing assignments will depend on which faculty member teaches the course, all students will get training in academic writing. The course is designed to prepare students for the graduate seminars and graduate research they undertake in the MALS program and in doctoral-level classes. It introduces the intellectual and methodological bases for graduate-level academic study within traditional disciplines and in interdisciplinary fields. It also provides a cohort experience for MALS students.

Learning Goals/Outcomes:
Students will learn the methods and conventions of critical reading and writing, the conventions of conference presentations, longer papers, and review essays, and the expectations for MALS theses and capstones. They will understand and assess the languages of the disciplines they will examine in their graduate seminars, and the stakes, the importance, and the politics of interdisciplinary thinking. Students will share what they know about their own areas of interest and learn something about the projects of other students in what will be, among other things, an exercise in collegiality. They will become familiar with the language, research methods, and databases of interdisciplinary academic study.

Assessment:
Research, written papers, and class presentations will be evaluated in terms of each student’s work over the course of the semester. Students will be asked to write frequent response papers, produce at least one review essay, and write a final research paper.

**MALS Concentrations and Core Courses**
The program offers the following:

<table>
<thead>
<tr>
<th>CONCENTRATIONS</th>

*Track is no longer accepting students

**MALS Concentration in Individualized Studies**
This concentration empowers students who identify a new area of study for which a MALS concentration does not currently exist to work closely with a MALS faculty member to create an individualized concentration of study.

- In order to enroll in the Individualized Studies concentration, a MALS student must find a faculty member to serve as their mentor. Students must submit a request form and a short (1–2 page) written proposal to the MALS Executive Officer outlining the proposed course of study, identifying courses that may be taken, and explaining why existing MALS concentrations are not feasible for such a course of study. The consulting faculty member must review the proposal and sign the application form before they are submitted to the EO.

- Applications for an Individualized Studies concentration must be submitted by 5 p.m. on **November 15** for the fall semester and by 5 p.m. on **March 15** for the spring semester in
order to be considered. Proposals should be submitted to Kathy Koutsis, MALS Assistant Program Officer, kkoutsis@gc.cuny.edu (Room 4106).

**Internship Course**

This course will enable students to get work experience using the academic training they have learned in class. MALS 73800 is an excellent way to earn academic credit while learning outside the classroom setting. Internships help to build your professional network and expand your skill set. The Office of Career Planning and Professional Development is a great resource at the GC where students can see an appointment for guidance.

**Requirements:**
- Students must obtain an internship before enrolling in the internship course.
- The deadline for students to apply is a date set a semester prior to the start of the course (Fall 2019 Internship course; deadline to apply-May 15, 2018). *Updates can be found on the MALS webpage [Internship Course](#).*
- Students must submit a proposal form **together** with a formal letter or email of an internship offer from the proposed employer to liberalstudies@gc.cuny.edu.
- The internship must be unpaid with a minimum of 140 internship hours completed.
- Students will be informed in a timely fashion if their application is accepted. Then they may proceed to enroll in the course through CUNYfirst.
- Students must attend all classes in addition to completing their internship hours to receive credit.

**Internship Awards:**
- Students who have found an internship approved by the program can apply for the MALSInternship Award, which supports unpaid internships.
- Applications will be accepted three times within an academic year.
- **You are not able to receive academic credit AND an internship award for the same internship.**
- For more details, requirements, and dates, please refer to [MALS Internship Awards PDF](#).

**Travel / Research Awards:**

MALs offers support for student travel and research each academic year.
- These funds cannot be used to present a paper at a conference, as there are funds available for that from the Office of Student Affairs.
- Preference will be given to students who are working on research related to their thesis or capstone.
- For more details, requirements, and dates, please refer to [Travel Research Grant PDF](#).

**The Master's Thesis/Capstone Project**

The thesis/capstone project is the culmination of the MALS degree. Students should start planning their thesis/capstone project halfway through the MALS Program (when students have close to 18 credits).
**Who is Eligible to Advise?**

Thesis and capstone project advisers must be members of the GC faculty. All GC faculty are listed in the [Annual Bulletin](#). Students should try to find advisers through their coursework but should understand that MAL/GC faculty may have other commitments that could prevent them from taking on an advisory role. Ideally students will approach faculty members well before any relevant deadlines and with a clear idea of what the thesis/capstone project is about. Students can use this [list of MAL faculty research areas](#) as a resource in their search for an adviser.

**The Thesis**

Ideally, the thesis should develop the interests’ students have explored in their coursework. Some students develop a paper written for a course—or a couple of papers—into their thesis. Without prior approval of the Executive Officer and the thesis advisor, **the text of theses shall not exceed sixty pages. The text must be a minimum of fifty pages**. Appendices, bibliography, images, and front material are not included in this limit. It is sometimes useful to think in terms of two or three chapters. Students should enroll in **MALS 79000: Thesis/Capstone Project** only when students have completed the coursework for the degree, or at least 24 credits of coursework. Some students register for one course and Thesis/Capstone Project in the final semester, and some register for Thesis/Capstone Project only. The thesis project should be completed in the semester during which a student has registered for Thesis/Capstone advisement.

**The Capstone Project**

The capstone project will enable students to integrate and synthesize the knowledge that they have developed during their MA coursework into a culminating project. Such works might include, but would not be limited to, an artistic or documentary video, archive finding aid, artistic performance (live or recorded), exhibition, journalistic report, digital project, or software tool. They should enroll in **MALS 79000: Thesis/Capstone Project** only when students have completed the coursework for the degree, or at least 24 credits of coursework. The capstone project should be completed in the semester during which a student has registered for Thesis/Capstone advisement.

The capstone project is accompanied by a 20-page paper that details the conceptualization, methodology, and/or technology used in the project and how the project is related to the student’s concentration and studies.

**Thesis/Capstone Project Prospectus**

Students should download and complete the [Thesis/Capstone Project Prospectus](#). The prospectus is due by the end of the Add/Drop Period during the semester for which students register for Thesis/Capstone advisement. Students must receive approval from their faculty advisers for the prospectus before they turn it in to the department.

Students undertaking Digital Capstone Projects are required to consult with the Digital Services Librarian, Stephen Zweibel ([szweibel@gc.cuny.edu](mailto:szweibel@gc.cuny.edu)), and the Executive Officer of MAL/S.
Elizabeth Macaulay (emacaulay@gc.cuny.edu), about sustainability and archiving of digital projects.

Registering for MALS 79000 (Thesis/Capstone Project)
In order to register for MALS 79000, students need to obtain written confirmation from the faculty who will serve as their adviser and forward the confirmation in an email to Kathy Koutsis (kkoutsis@gc.cuny.edu), who will then issue the class permission.

MALS 79000 is a required course and is different from the MALS 72000 Thesis Writing Course, which is optional.

Approval Process for the Thesis:
MALS theses need to be approved by both the faculty adviser and the Executive Officer.

Please submit your thesis to the faculty advisor (at least two to three weeks) before the department submission date (listed below) so that the faculty advisor can read, comment, and if appropriate, ask for revisions before approving the thesis.

Students should consult and follow the Mina Rees Library’s instructions for preparing and depositing theses. The Library’s Text Format Guidelines include sample MA Thesis approval and title pages. Please visit http://libguides.gc.cuny.edu/dissertations for more information.

Approval Process for the Capstone Project:
MALS capstone projects need to be approved by both the faculty adviser and the Executive Officer. The twenty-page whitepaper (which details the critical framework and connection of the capstone project to a student’s concentration and studies) and any supporting material should be submitted to the program, three weeks in advance of the library deposit deadlines for theses (see chart below).

Once approved, the department will certify that the student has completed all of the requirements for graduation. The student will graduate at the degree date following their submission (fall, winter, or spring).

Exit Survey
All students fill in a short exit survey and submit it to the department when they submit their thesis to the Executive Officer.

Submission and Deposit Deadlines
A thesis may be deposited anytime; degree deadlines are below:
For Degree

<table>

For more information on depositing the thesis, see the [Dissertations & Theses deposit guide](#).

**IRB Approval**

The CUNY Human Research Protection Program (HRPP) is responsible for the protection of the rights and welfare of human subjects in research projects conducted at CUNY or by CUNY faculty, staff and students and Research Foundation of CUNY staff. The program provides oversight, administrative support and educational training to ensure that CUNY research complies with federal and State regulations, University policy, and the highest ethical standards. The CUNY HRPP comprises of 5 University Integrated Institutional Review Boards (IRBs) and 19 on-site HRPP offices.

CUNY HRPP or IRB review is required when ALL the following criteria are met: (i) The investigator is conducting research or clinical investigation; (ii) The proposed research or clinical investigation involves human subjects; AND (iii) CUNY is engaged in the research or clinical investigation involving human subjects.

Research protocols that meet ALL the above criteria must be submitted using the electronic submission system ([http://ideate.cuny.edu](http://ideate.cuny.edu)) to the HRPP office at the CUNY campus with which the faculty member or faculty advisor for student research protocols is primarily housed.

**HRPP policies, procedures and guidelines are available here:**

[http://www2.cuny.edu/research/research-compliance/human-research-protection-program-hrpp/hrpp-policies-procedures/](http://www2.cuny.edu/research/research-compliance/human-research-protection-program-hrpp/hrpp-policies-procedures/)

For faculty and students of faculty who are primarily affiliated with the Graduate Center, please visit the GC HRPP website at: [www.gc.cuny.edu/hrpp](http://www.gc.cuny.edu/hrpp)
Helpful Definitions:
1. Research: A systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.

2. Clinical investigation: Any experiment that involves a test article and one or more human subjects and that either is subject to requirements for prior submission to the Food and Drug Administration (FDA) under the Federal Food, Drug and Cosmetic Act (the Act), or is not subject to requirements for prior submission to the FDA under the Act, but the results of which are intended to be submitted later to, or held for inspection by, the FDA as part of an application for a research or marketing permit.

3. Human subject: A living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information. When FDA regulations apply, human subject is an individual who is or becomes a participant in research, either as a recipient of the test article or as a control.

4. Intervention: Both physical procedures by which data are gathered (for example, venipuncture) and manipulations of the subject or the subject's environment that are performed for research purposes.

5. Interaction: Communication or interpersonal contact between investigator and subject.

6. Identifiable: The identity of the subject is or may readily be ascertained by the investigator or associated with the information.

7. Private information: Information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a medical record).

8. Test article: Any drug (including a biological product for human use), medical device for human use, human food additive, color additive, electronic product, or any other article subject to FDA regulations.

9. Engaged: CUNY is considered engaged in a particular human subjects research project when CUNY employees or agents obtain, for the purposes of the research project, (1) data about the subjects of the research through intervention or interaction with them; (2) identifiable private information about the subjects of the research; or (3) the informed consent of human subjects for the research. Note: CUNY applies OHRP Guidance on Engagement of Institutions to determine CUNY’s engagement in all research, regardless of funding.

Writing Resources
- Thesis Writing Course
  The Thesis Writing Course (MALS 72000) is an optional three-credit class that has proven helpful for some thesis writers. If it is being offered during a given semester, the course description will appear among other course listings.

- Citation Managers
  The library provides instruction in the use of two citation managers, RefWorks and Zotero. Zotero, an open-source tool, is still accessible after students leave the Graduate Center, which is a significant advantage.

- Style Guides
  Though MALS does not require a specific citation style, theses should be consistent in the usage of whatever citation style is chosen. Purdue OWL – The Purdue OWL provides free online writing resources to help follow citations styles.
• **Career Services Writing Consultations**
  Graduate writing consultants are available to meet to review students’ written materials and to discuss writing-related issues. Consultants do not “correct” or copy-edit student writing; rather, they help students learn and implement writing strategies.

**Academic / Digital Resources**

* **Mina Rees Library**
  One of the consortial advantages of CUNY is its library system.
  - GC students have borrowing privileges at all twenty CUNY libraries.
  - An online public access catalog permits users to determine the location and circulation status of nearly every book and periodical held by CUNY.
  - Students and faculty can search online databases via the Mina Rees Library website. The site also provides the following:
    - library’s hours and borrowing policy (GC Master’s students can check books out for 6 weeks with unlimited renewals)
    - 60 full-text and citation databases
    - interactive forms for making Interlibrary Loan (ILL) requests (ILL arrangements make it possible to obtain material held in other collections throughout North America and the world)
    - allows users to ask reference questions and request library instruction
    - many useful links and other services

* **MaRLI: Manhattan Research Library Initiative**
  The New York Public Library (NYPL) and the libraries of Columbia University and New York University have launched an initiative to expand access and use of their collections to better serve their users. The collaboration, dubbed the Manhattan Research Library Initiative (MaRLI), enables eligible users with demonstrable research need not met by currently available resources, to borrow materials from all three institutions.
  - CUNY GC Master’s students may apply for MaRLI privileges as *independent scholars* instead of GC affiliates through an in-person review by NYPL librarians (as of October 1, 2019).
  - Also, GC affiliates (and all NYPL cardholders) may use NYPL’s databases, some of which are only available on site and some of which are available remotely.
  - For more information, please visit [http://libguides.gc.cuny.edu/MaRLI](http://libguides.gc.cuny.edu/MaRLI).

* **MALS Research Guide**
  The online research guide arranged by MALS librarian, Stephen Zweibel, is intended to be used as a starting place for research in the MALS program.

* **The Writing Center**
  The Office of Career Planning and Professional Development supports the Graduate Center’s students in reaching their career goals. The office offers the following:
    - Workshops
    - Individual career counseling, including advice on CVs, resumes.
Job search materials
- Assistance with preparing for interviews.
- Discussions on career planning strategies
- There is a specific [https://careerplan.commons.gc.cuny.edu/resources/mastudentssection](https://careerplan.commons.gc.cuny.edu/resources/mastudentssection) for MA students.

**Language Reading Program**
The mission of the Language Reading Program (LRP) is to teach students to read texts in languages other than English, and to translate them into idiomatic English, so students can meet their graduate program language proficiency requirements and achieve their goals for personal or professional development. There is no emphasis on conversation or on producing the subject language in speech or writing.
- The courses are noncredit, and do not appear on students' transcripts.
- The LRP offers language examinations only to students who are registered for courses.
- Registrations are taken on a first-come, first-served basis.

**Quantitative Research Consulting Center**
The Quantitative Research Consulting Center (QRCC) provides students with greater resources for statistical support in quantitative and empirical research. The Center complements existing statistics coursework by bridging the gap between the classroom and implementation in researchers’ own work. The QRCC offers individualized consulting appointments free of charge to members of the GC community.

**GC Digital Initiative**
Graduate Center Digital Initiatives (GCDI) draws together a diverse array of digital projects at the Graduate Center that focus on the incorporation of technology into academic research and teaching. Featured project clusters and areas of strength include the digital humanities, digital scholarly communication, data mining, data repositories, open access journals, spatial humanities and social sciences, network analysis, teaching and learning in a digital age, and digital archives. For more information visit [http://gcdi.commons.gc.cuny.edu/](http://gcdi.commons.gc.cuny.edu/).

**Digital Fellows Program**
Based in the GC Digital Scholarship Lab, the GC Digital Fellows Program operates as an in-house think-and-do tank for digital projects, connecting Fellows to digital initiatives throughout The Graduate Center. The Fellows offer workshops every semester on topics ranging from Introduction to Python to Establishing a Digital Identity. The Digital Fellows Office Hours take place in the [Digital Scholarship Lab, Room 7414](http://digitalfellows.commons.gc.cuny.edu/). For more information visit [http://digitalfellows.commons.gc.cuny.edu/](http://digitalfellows.commons.gc.cuny.edu/).

**CUNY Academic Commons**
The CUNY Academic Commons is designed to support faculty initiatives and build community through the use(s) of technology in teaching and learning. The free exchange of knowledge among colleagues across the university is central to better educating the student body and expanding professional development opportunities for faculty research and teaching. Students
and Faculty can create their own websites and groups on the commons, as well as connect with other colleagues across CUNY. For more information visit [http://commons.gc.cuny.edu/](http://commons.gc.cuny.edu/).

**OpenCUNY**
OpenCUNY was formed in early 2008 to provide student organized, open-source, social media for the CUNY Graduate Center community. As the GC community's student-based, open-source, academic, participatory digital medium; OpenCUNY works with GC students to develop personal websites, interactive environments for chartered organizations, student associations, conferences, graduate research, and an array of other initiatives. For more information visit [http://opencuny.org](http://opencuny.org).

**Professional Development courses**
These courses do not carry credit, are ungraded, and do not appear on the student's transcript. They are free of charge and open to all matriculated Graduate Center students. Students register for them as they do their academic classes and can find them listed under "Professional Development" in the course schedule. Regularly offered courses are the following:
- **PDEV 79400** Advanced Spoken English: Teaching and Presentation Skills
- **PDEV 79403** Effective Academic Writing for native English speakers
- **PDEV 79403** Effective Academic Writing for non-native English speakers
For more information and resources pertaining to MA students please visit [https://careerplan.commons.gc.cuny.edu/resources/mastudents](https://careerplan.commons.gc.cuny.edu/resources/mastudents)

**Student Resources at the Graduate Center**
**MALS Student Association**
All MALS students are automatically members of the MALS Student Association (SA), which provides funding for student events and communicates student concerns and needs to the Program's administration. The MALS SA announces events and meetings in the MALS Student Group of the [CUNY Academic Commons](http://commons.gc.cuny.edu/) and also via its Facebook page at [https://www.facebook.com/groups/MALSSA/](https://www.facebook.com/groups/MALSSA/). Being active in the SA ensures that students have a say in the program.
- In order to join the group a valid GC e-mail account is needed. A GC e-mail account will be assigned to new students 3–5 days after registering for courses. Use that e-mail to create an account on the [CUNY Academic Commons](http://commons.gc.cuny.edu/).
- Once registered, please visit the [MALS Student Group](https://www.facebook.com/groups/MALSSA/) page, and join.

**Doctoral Students’ Council**
The Doctoral Students’ Council (DSC) is the elected body of masters’ and Ph.D. students that makes policy, distributes the student fee monies, and represents student concerns to the administration. Students may drop-in during DSC **office-hours** in room 5495, located in the Robert E. Gilleece Student Center on the 5th floor. While there, students may enjoy free coffee (while supplies last), **buy discounted movie tickets** ($8 each for AMC/Loews; $7.50 each for Angelika), and **stock up on free safer sex supplies**. For more information visit [http://cunydsc.org](http://cunydsc.org).
Lounges, Dining, and Other Spaces

The MALS Student Lounge is in room 4109. The lounge features a bank of computers connected to a printer. There is also one scanner for student use. Unfortunately, there is no copier on this floor for student use - please use the copiers in the library.

The Robert E. Gilleece Student Center is located on the 5th floor. It houses offices for student government and chartered organizations of the Doctoral Students' Council, two lounges (Room 5414, a “social” lounge, and Room 5409, a “quiet,” or “working,” lounge), a kitchenette, meeting space (Room 5489), and a computer lab (Room 5487).

The Student/Faculty Dining Commons is located on the 8th floor.

The Master’s Student Study is located on the 7th floor, in room 7405. It offers several boothswith computers, and a big meeting table.

The Foundation Lounge, adjacent to the coffee shop, offers seating and coin-operated food and beverage dispensers. The lounge is open when the building is open and can be entered either through the door to Room 1102 or from 365 Express when the coffee shop is open.

Gender-Neutral Restroom Facility
The GC has a gender-neutral restroom facility. It is in the southeast corner of the 7th floor, next to Room 7408 and Staircase C.
GC Administrative Offices

<table>
<thead>
<tr>
<th>Registrar</th>
<th>Room 7201</th>
</tr>
</thead>
<tbody>
<tr>
<td>Email: <a href="mailto:registrar@gc.cuny.edu">registrar@gc.cuny.edu</a></td>
<td>Phone: (212) 817-7500, Fax: (212) 817-1627</td>
</tr>
</tbody>
</table>

The Registrar’s website contains critical information about the academic calendar, registration, tuition liability, forms and the CUNYFirst course schedule (where up-to-the-minute course information, such as classroom assignments, is posted).

Contact the Registrar if there is a need to...
- apply for In-State tuition (as a current student; new students, see Admissions below)
- submit transcript request(s) (only after settling your bill for the transcript(s) with the Bursar)
- change your address (also submit a change of address to your program)
- inform the Graduate Center of a name change
- get information regarding Veterans' Benefits

<table>
<thead>
<tr>
<th>Bursar</th>
<th>Room 8105.7</th>
</tr>
</thead>
<tbody>
<tr>
<td>Email: <a href="mailto:bursar@gc.cuny.edu">bursar@gc.cuny.edu</a></td>
<td>Phone: (212) 817-7680, Fax: (212) 817-1637</td>
</tr>
</tbody>
</table>

Contact the Bursar if there is a need to...
- pay for a transcript for an external CUNY agency (once payment is made, return completed form to the Registrar for processing)
- clear a bursar’s hold
- pay for a transcript request (to be done prior to going to the Registrar)
- pay for a lost/stolen ID Card
- update ID validation sticker for the current semester
- settle your tuition / any tuition Inquiries

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Email: <a href="mailto:admissions@gc.cuny.edu">admissions@gc.cuny.edu</a></td>
<td>Phone: (212) 817-7470, Fax: (212) 817-1624</td>
</tr>
</tbody>
</table>

Contact Admissions if there is a need to...
- clear an admissions hold (such as a missing transcript, immunization records, etc.)
- get help finding housing
- submit in-state tuition forms (as a new student only; current students, see the Registrar)
Contact Student Affairs to...

- clear satisfactory progress holds (This is the second step in the process; for first step, see the MALS Deputy Executive Officer)
- obtain permission for late withdrawals (after the official drop/add deadline has passed)
- obtain information on Disability Services

Contact Financial Assistance if there is a need to...

- apply for Federal Aid (Work-Study or Loans)
- accept financial aid awards
- turn in outstanding documents
- drop a course, because this may impact your financial aid

The Wellness Center, offers student health and counseling services:

- The Student Health Services is staffed and directed by a licensed Nurse Practitioner, providing episodic and primary health care to all registered Graduate Center students. Services include visits for acute medical problems as well as management of ongoing health issues, women’s health examinations, men’s genitourinary examinations, screening for STIs (sexually transmitted infection), immunizations and workshops. Students are seen by appointment. However, students with urgent problems will be seen on a walk-in basis as available. There is no charge for visits to the Health Service.
- The Student Counseling Services is staffed by licensed psychologists and by postdoctoral and predoctoral fellows. They provide confidential counseling and short-term psychotherapy, group counseling, crisis intervention, and referral services to Graduate Center students, and couples therapy to students and their partners. They offer workshops that address the challenges and stresses of graduate student life.
- Several health insurance options are also available for interested students.
It is the policy of the Graduate Center to provide auxiliary aids and services and to make appropriate academic accommodations needed by students with disabilities. The Graduate Center provides:

- readers/library assistants
- sign-language interpreters
- note takers, scribes.
- Adaptive equipment and computer software
- other auxiliary aids and services as needed

Students with disabilities should register with Security and Public Safety (Room 9117, phone: (212) 817-7761) so that provision may be made for their safety should an emergency arise. The Vice President for Student Affairs is the 504/ADA Coordinator. For more information (with confidentiality) contact Elise Perram at (212) 817-7400 or disabilityservices@gc.cuny.edu and consult the Graduate Center Student Handbook.

The Office of Security and Public Safety strives to provide a safe and secure environment for the Graduate Center community while protecting and respecting the rights of the individual. Responsibilities include crime prevention, emergency response, access control, key distribution, fire safety, special event security, and administration of the Lost and Found. Security and Public Safety personnel provide a visible security presence through a combination of fixed posts and roving patrols, 24 hours a day, seven days a week.

IT Services (formerly the Help Desk) provides technology support to GC students, faculty, and staff. Members of the Graduate Center user community should contact IT Services for matters requiring technical intervention.

Contact IT services for help with…

- network accounts and email accounts
- remote access to Graduate Center computing resources
- Help Desk support and assistance
